

Don't change who you are. Amplify what you can become.

let's go together

NetBrokrs Insurtech

> We connect technology, capabilities, and digital solutions with brokers around the world.

> We are an international network with access to 10 key markets.

We embed insurance into new channels, enhancing digital distribution.

We drive business with innovative tools and the best insurtech solutions on the market.

NetBrokrs transforms insurance into a global value proposition.

### Our Model: Connecting Technology, Markets, and People

## about us

At NetBrokrs, we don't sell insurance. We design ecosystems.

We build connections between technology, people, and opportunities — turning insurance from products into a seamless, embedded experiences.

We're a global network of brokers, digital solutions, and insurtechs that think at scale, move fast, and challenge the status quo.

Based in Miami with reach across 10 key markets, we help companies of any industry embed insurance into their value propositions — effortlessly.

We don't follow trends. We launch them. We don't talk about digital transformation. We build it.

### **Our Strategic Superpowers**

Digital & Al-Powered Solutions

Insurtech
Accelerator &
Portfolio

Platform Mindset & Ecosystem Speed, Scale & Agility

### vision

To be the leading global platform redefining the insurance experience by fully integrating digital solutions and artificial intelligence to create a more accessible, efficient, and customer-centric market. We envision a new generation of brokers — the NetBrokrs — driving this transformation, because the more people have insurance, the safer their future will be.

### mision

To empower companies and brokers worldwide to transform insurance distribution by connecting technology, talent, and opportunities within an agile and innovative digital ecosystem that creates real, scalable value. We are building the brokers of the future — the NetBrokrs — because we believe that the more people have insurance, the safer their future will be.

### values

At NetBrokrs, our values drive every decision, partnership, and solution we build. They shape our culture and reflect our commitment to our partners, clients, and the future of insurance.

- Global Vision: We think big and act as a network. Our focus is on connecting markets, people, and opportunities at a global scale.
- Purpose-Driven Innovation: We don't innovate for the sake of it we do it to create real impact. We invest in solutions that transform the industry and improve people's lives.
- Platform Mindset: We build ecosystems, not silos. We believe in integrating capabilities, data, and technology to unlock value across the entire insurance value chain.
- Strategic Speed: We move fast, but with purpose. We adapt, scale, and execute with agility always aligned with long-term vision.
- **Human-Centered Commitment:** We believe that the more people have insurance, the safer their future will be. That's why we work to bring smarter, more accessible insurance solutions to more people, everywhere.

These values power the next generation of brokers. The NetBrokrs.

They don't follow rules — they redesign them. They don't compete — they dominate. They don't adapt to change — they lead it.

They combine experience, technology, and Al. They turn data into decisions. Time into opportunities. Clients into partners.

They're not ordinary.
They don't settle.
They don't stop.

They are the brokers of the future. They are NetBrokrs.

**Tools to enhance your client's experience:** Solutions that make communication, follow-up, and personalized service easy—so your clients feel truly cared for.

**Peace of mind and security:** Tools to keep you compliant and protect your clients' data.

### A key bridge in Fidens Insurtech's entry into the U.S. market

NetBrokrs connects Fidens with BlockRisk to launch a cutting-edge digital insurance factory for wholesale brokers.

NetBrokrs played a strategic role in enabling a gamechanging alliance in the U.S. wholesale insurance space. BlockRisk selected Fidens Insurtech as its technology partner to design and power a digital insurance product factory—accelerating time-to-market with embedded and API-first solutions.

### IMPACT

- Fidens signs its first U.S. client just 6 months after opening its Miami office
- BlockRisk launches a digital-first platform aligned with global trends
- The solution is validated by the world's most competitive insurance market

### Who benefits

- Wholesale Brokers. Launch digital insurance products faster and at scale.
- Partners. Access robust embeddedready infrastructure via API.
- End Customers. Experience seamless, simple and digital insurance journeys.

### Solution powered by Fidens Connect The platform includes 20+ pre-integrated tools to enable full digital distribution:

- Business intelligence and reporting
- Digital signatures and identity verification
- Payment gateways
- Service chatbots and automations

### A strategic gateway for Patagon Al's entry into the U.S. insurance market

NetBroks connects Patagon Al with NetSecure to deploy an Al-powered funnel for cyber insurance sales through brokers.

NetBroks played a strategic role in enabling a breakthrough alliance in the U.S. personal cyber insurance space.

Patagon AI selected NetSecure as its trusted insurance partner to convert AI-qualified leads into policyholders—bridging smart acquisition with seamless insurance execution. The alliance unlocks digital sales potential for brokers, powered by automation and data.

### IMPACT

- Patagon Al enters the U.S. market through cyber insurance for families
- NetSecure unlocks a fully digital channel to scale retail distribution
- Brokers close more policies with qualified leads.

### Who benefits

- Brokers. Receive Al-qualified leads for selling personal cyber insurance at scale.
- Families. Get simple and secure protection through a digital insurance journey.
- Partners. Leverage a fully automated acquisition and sales pipeline.

### Solution powered by Patagon Al

The AI engine integrates pre-built tools to drive high-quality insurance sales:

- Predictive lead scoring and segmentation
- Smart forms and automated outreach
- Digital conversion tracking and analytics
- Broker handoff and CRM-ready flows.

### Together With Those Who Believe in What's Next

## We Drive the Future of Health

Empowering Our Partners Through Smart and Scalable Health Solutions

### **International Health Insurance**

We offer comprehensive capabilities to manage international health insurance, tailored both for end clients and corporate programs. These solutions are designed to provide high-value coverage for executives and key personnel.

### **Health & Wellness Ecosystem**

We design integrated platforms that enable users to access personalized health and wellness services—simple, convenient, efficient, and available anytime, anywhere.

### **Predictive Medical Intelligence**

Smart and cost-effective clinical intelligence solutions that provide real-time, actionable data to healthcare professionals and users. Ideal for managing and monitoring chronic conditions, validated by leading academic institutions.

### **Hospital Process Optimization**

We automate hospital workflows using advanced technology and AI to improve appointment availability and increase patient throughput. We also optimize surgery scheduling by coordinating human and peripheral resources efficiently.

### **Home Health Ecosystem**

We've built a digital ecosystem for home healthcare, enhancing every step in the value chain. Our goal is to improve people's quality of life through innovation and intelligent, personalized health services.

# We Drive the Future of Insurance Distribution

Intelligent, scalable, and personalized solutions for brokers

### **Digital Distribution Platform**

A SaaS solution that digitalizes insurance sales across all lines, making it easy for users to access coverage anytime, anywhere.

### **Intelligent Monitoring & Sustainability Management**

Enables brokers to offer remote infrastructure monitoring, energy optimization, automated maintenance, and real-time efficiency analytics—turning them into strategic partners.

### **Affinity Models & Value Ecosystems**

Helps build lasting customer relationships through personalized ecosystems that enhance brand loyalty and open new business opportunities.

### **Digital Health & Wellness Ecosystems**

Uses AI to deliver personalized health experiences, automate medical and non-medical claims, and provide digital customer service, all integrated with existing broker or insurer systems.

### **Advanced Analytics & Smart Segmentation**

Provides real-time data tools to identify opportunities, anticipate client needs, and tailor offers for better commercial results.

### **Process & Workflow Automation**

Automates repetitive tasks like quoting, issuing, renewals, and collections to scale operations efficiently and reduce errors.

### Plug & Play Integrations with Insurers & APIs

Simplifies connections to multiple insurers through standard APIs, enabling fast access to new products and real-time comparison.

# Driving the Future of Assistance Services

Innovative, scalable, and tech-driven solutions for brokers and service providers

### **AI-Powered Claims Management**

An intelligent platform automating claims intake, evaluation, and approval to speed up processing and reduce errors.

### 24/7 Virtual Assistance & Chatbots

Multichannel virtual assistants offering immediate support and service coordination anytime, lowering operational costs.

### **Real-Time Remote Monitoring**

IoT sensors track critical assets to detect incidents instantly and trigger rapid responses.

### **Geolocation and Dispatch Optimization**

Advanced tracking enables precise location and efficient resource allocation for faster assistance.

### **End-to-End Workflow Automation**

Automates assistance processes from requests to follow-up, enabling smooth operational scaling.

### **Seamless Integration with Partners and Providers**

Plug & play API connections ensure unified and frictionless assistance experiences.

### **Customer Self-Service Portals and Apps**

White-label platforms let clients manage requests, track progress, and communicate directly with advisors.

### **Travel Assistance**

Allows brokers to create white-label travel assistance programs tailored to clients' needs for enhanced protection.

### **Funeral Assistance and Repatriation**

Digital services offering emotional, logistical, and financial support with personalized solutions and regional presence for prompt response.

# Driving the Future of Cyber Protection

Innovative, scalable, and tech-enabled solutions for brokers and clients

### **Comprehensive Cyber Risk Coverage**

Tailored insurance products designed to address emerging digital threats and evolving cyber risks, providing essential protection in a complex landscape.

### **Proactive Threat Monitoring**

Real-time detection and alert systems that identify vulnerabilities and suspicious activities before they escalate into incidents.

### **Automated Incident Response**

Technology-driven workflows that enable fast containment and mitigation of cyber attacks, minimizing damage and downtime.

### **Risk Assessment and Analytics**

Data-driven tools that help brokers evaluate client risk profiles and customize coverage to meet specific cybersecurity needs.

### **Seamless API Integrations**

Easy integration with multiple insurers and cyber service providers, streamlining product access and operational efficiency.

### 24/7 Expert Support and Virtual Assistance

Continuous access to cybersecurity experts and AI-powered virtual assistants for rapid incident management and client guidance.
